Title: Academic Companion

Introduction:

The Academic Companion App is a mobile-based solution designed to help students manage their academic responsibilities more effectively. It integrates essential functions such as class test notifications, attendance tracking, continuous assessment logging, and study planning into a single platform. By enabling students to monitor their progress, calculate CGPA, and receive timely reminders for academic tasks, the app supports better organization, improved productivity, and data-driven decision-making throughout their educational journey.

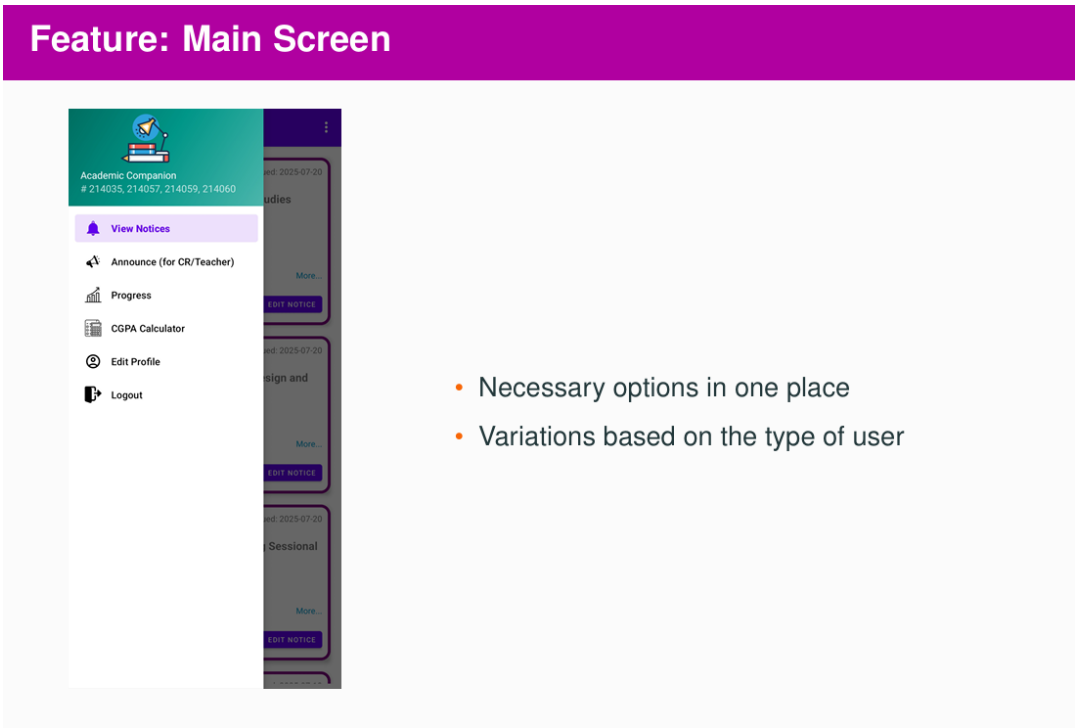
Key Features:

- Announce notice- Class CR or Teacher can provide notice through this app
- View notice- Student just views the notice but dose not announce or edit it.
- Progress tracking – Track your academic progress & demonstrate how much further to achieve
- Attendance Logging – Self-record attendance with summaries and alerts
- GPA Tracker – Update and predict GPA based on grades and credits
- CGPA calculator- calculate CGPA based on the previous GPA

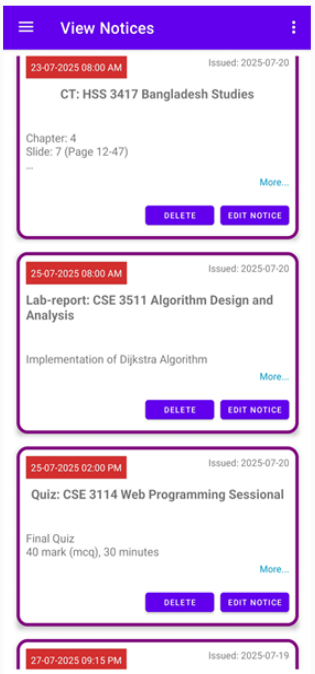
Requirements:

- Platform : Android
- Language : Java
- IDE : Android Studio
- Database : Firebase
- UI Design : Android XML

Final Design:

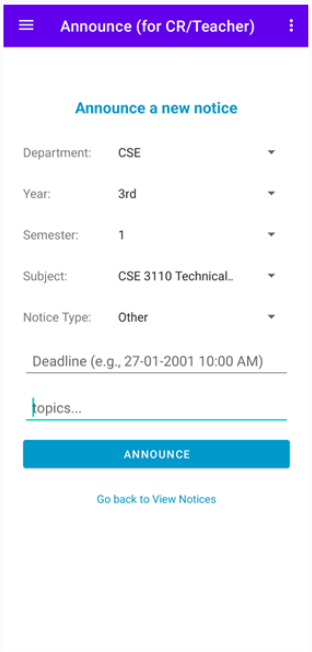


Feature: View Notice



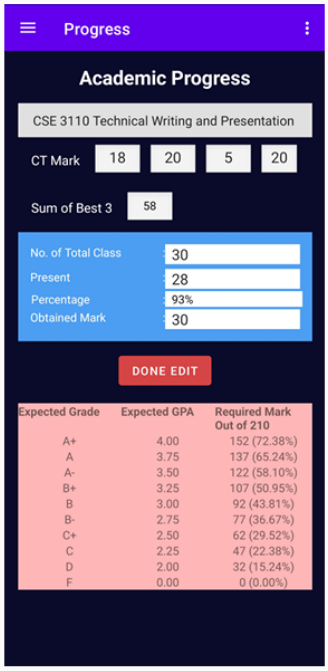
- Extracts appropriate notices from database
- Modification facility for Teacher/CR
- Nearest deadlines shown at the beginning

Feature: Announcements



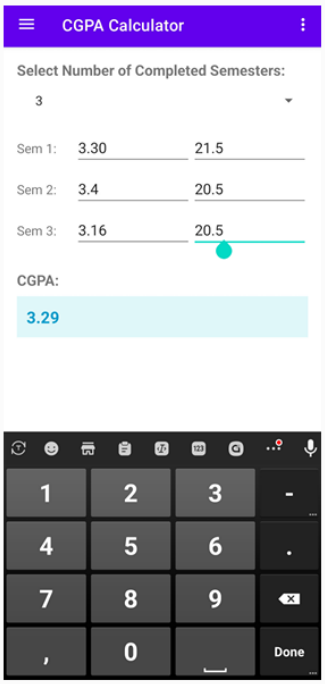
- Applicable for Teacher and CR
- Auto suggestion of subjects
- Instant go back to View Notice page

Feature: Progress Tracking



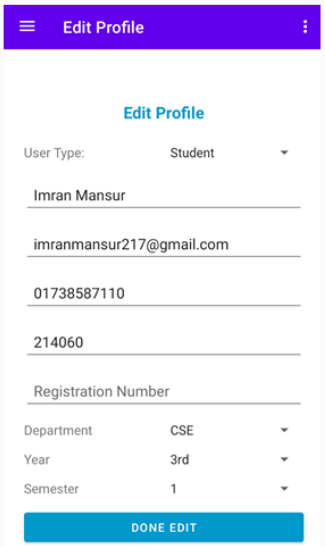
- Choose auto suggested subjects
- Versatile fields for input/output data
- Demonstrate how much need further to achieve

Feature: CGPA Calculator



- Custom input
- Real-time result

Feature: Edit Profile



- Update your profile attribute

Discussion:

The app simplifies academic tasks by allowing CRs or teachers to post notices, while students can only view them. It includes tools for tracking academic progress, self-logging attendance, and monitoring GPA. The CGPA calculator helps students stay informed about their overall performance, making the app a useful tool for academic planning and self-management.
